"It was by fifty years of such warfare, only with the Indians of the frontier, that Western We venerate the brave ume is returning. men that in those early days thus made a law which would not be mistaken, and which could not be evaded. In all these countries, their deeds are handed down in traditions and in songs, for the respect of the last and longest generation. That time is returning. The people of the border again resort to the law of self preservation; will again, by fire and slaughter, by laying waste the land, burning towns, by hanging and shooting their plunderers, wherever they can be caught, place the fear of evil doing before the eyes that will only see by the light of a fired house, and sound the words of the Constitution in the ears of those who will only hear when arounted with their blood in villany. The adoption of these measures will produce an unpleasant state of things; but it has existed before on the same exercised again. A prave people, thus resolved on self-defence, will be villiefied by all the thieves in the world; but so were these of whom we have spoken, and whom posterity holds in

The Spirit shown in the early history of other countries, and which animated the pioneer population of the west' within the recollection of many yet living is not yet dead .-It has slept, because there has been little for and circumstances are making it. The fear were a few more coming show of punishment is the only thing that will prevent genuine yankees from stealing. The peniteniary and the whipping post are the only incentives to honesty in private life, and the torch and the bullet are the only means to make them other than a nation of robbers in their collection capacity."
